Amigo #2: _____

¡SEIS!

You and your partner are going to race to complete this paper! (Each partner should have a different color pencil to keep track of who answers which questions). Play Rock, Paper, Scissors to decide who will start. Whoever wins is going to start answering as many questions below as they can. The other person rolls a die (FAST!) until they roll a 6 and yells "¡Seis!". When this happens, switch papers and now the second person is answering questions while the first student is rolling the die. Continue until the other person rolls a 6. Do this until the worksheet is complete. After checking answers, the person that has completed the MOST CORRECTLY wins!
